

Enable Cloud Recording Option

Enable the cloud recording for the option to have the option of local or cloud recording each time you hold a meeting. View complete documentation on how to use and view cloud recordings on the ConferZoom website under the Features section.

1. Log into your ConferZoom account at www.conferzoom.org
2. Go to Meeting Settings

3. Go to Recording section
4. Click Edit

5. Check the Cloud recording box, including other preferred options, then Save Changes.
